Summary

Product Designer with 2+ years designing and shipping user-centered experiences for apps and websites. Sole designer across three brands, owning the full process from user research and information architecture to interaction design, and prototyping. Validates design decisions through A/B testing and rapid prototyping in code — translating user needs into measurable product outcomes.

Professional Experience

UI/UX Designer

Oct'24-Present

Heavenly Secrets Pvt. Ltd. • Pilgrim, PHD

- Sole designer owning end-to-end UX across three consumer brands — user research, information architecture, interaction and visual design, prototyping, and launch.
- Designed and shipped one new D2C app (PHD) from scratch — 40+ screens each and complete user flows, from concept to launch.
- Redesigned Pilgrim's app and website, restructuring information architecture and navigation to improve product discovery and checkout.
- Ran 15+ A/B tests on core flows and product pages; winning variants I designed improved add-to-cart rate by up to 5.1% (99% statistical confidence) and average order value by 1.8%.
- Designed and shipped a Sunscreen UV-Index widget that drove a 3.61% uplift in orders across Delhi, Mumbai, and Pune (128K+ users tested).
- Prototyped and shipped production features using AI-assisted development, owning features end-to-end from design through launch.

Intern- UI/UX Designer

July'24-Sep'24

Impactapp.com

- Gamified the Achievements section with an engaging rewards system, increasing daily active users.

Intern- User Experience Designer

Jan'24-Jun'24

Arvind Fashions Ltd. • Bangalore, IN

- Conducted a UX audit of the U.S. Polo Assn. India app and redesigned the Product Listing and Product Description pages, improving the browsing experience.

Key Projects

Offer Cards Redesign — Pilgrim Product Page

- Redesigned product-page offer cards; the new design won the A/B test with a +5.1% add-to-cart lift at 99% statistical confidence across 74K+ tested visitors.

Sunscreen UV-Index Widget — Pilgrim

- Designed and shipped a net-new contextual widget surfacing the local UV index on product pages; drove a 3.61% orders uplift and a 16.3% add-to-cart rate from impressions across Delhi, Mumbai, and Pune (128K+ users).

Bullet Lipstick PDP Redesign — Pilgrim

- Redesigned the mobile product page with clearer hierarchy and social proof; A/B test showed +1.8% average order value over the control across 42K+ visitors.

PHD — 0→1 App Design

- Designed one D2C mobile app end-to-end as the sole designer — 40+ screens each and all user flows, from concept to launch.
